

Have Control Over Access Of Your Premise....

February 2010 Promotion

Secure Pin/RFID Standalone Door Access Controller System from \$380 Nett

Quick Check if your current/intended System Has Security Flaw !

Ask your vendor the following questions

1. When the Door Access Controller/Reader is Ripped Out, will the Door Open? (Yes/No)
2. When there is a Power's Shortage, will the Door Open? (Yes/No)

If you answer Yes to any of the questions, it's time to upgrade your Door Access System !

Our System comes with a Special Secure Relay Model which prevent the door from opening when the Controller/Reader is forcefully remove !

Upgrading Package

(Upgrade Existing Insecure Controller to Secure Controller, subjected to equipment compatibility)
